# Educational Leader Training

**Is your Educational Leader struggling? Let us teach your Educational Leader how to get all their educators onto the same page (NQS Exceeding Theme 1 Embedded Practice).**

Educators come to us with different knowledge, practices and understanding of what's required for programming. This causes inconsistency across the service and can cause issues during A&R.

To overcome this problem we have developed an Educational Leader training course that will teach Educational Leaders how to identify where their educators knowledge, practices and understandings are. Then we will show Educational Leaders exactly how to teach their educators how to improve. This will result in all educators being on the same page (NQS Exceeding Theme 1 Embedded Practice).

With over 4000 real services just like yours as customers across Australia, we know exactly what Educational Leaders need. We are in centres daily supporting Educational Leaders and hear their concerns, issues and struggles. That is why we have developed this course based on what is really needed.

At Centre Support we teach you practical skills to support you and your team.

We have trained over 21,000 educators across Australia, including thousands of Educational Leaders.

**In this training session, Educational Leaders will learn how to:**

- Identify the knowledge and practice level of all their educators
- Teach their educators how to increase knowledge and practice level
- Set realistic, achievable goals
- Assess and give constructive feedback to their educators about their curriculum and learning documentation
- Teach educators to write clearly with correct grammar
- Help their educators understand the planning cycle so nothing is missed
- Conduct a performance review with educators
- Support themselves and learn valuable strategies to manage stress

All Centre Support courses book out fast. Don't miss out on our hands-on Educational Leaders' workshop. We have limited the spots to ensure all attendees can benefit and learn.

If your Educational Leader doesn't attend this workshop they and their educators may continue to struggle and remain stressed and overwhelmed.

**Book now and let us teach your Educational Leader proven strategies that will reduce and remove their stress so they can be the best Educational Leader possible.**
