

Welcome New Parents

**Just a quick reminder.
You can visit or call
the centre at ANY TIME.
You are always welcome.**

You can stay with your child for any length of time. Settling in is different for every child and family.

We record what your child has eaten and how long they have slept for, please talk to us if you would like to know about your child's day. We would like to share this information with you.

Please tell us information about the way you care for your child. This can include sleeping routines, special words and techniques. We will use this information to make your child's care at our centre familiar like home.
