

Step 1 Critical Reflection

Critical Reflection

The EYLF and MTOP says “Critical reflection involves closely examining all aspects of events and experiences from different perspectives”. Critical reflection has no criteria like the checklist.

Select one or more from below or from the checklist to critically reflect upon:

- Would families/children agree you discuss health and safety issues with them and include them in making service rules promoting health and safety?
- Would families agree you always record information about illnesses and injuries and discuss with them in culturally sensitive ways as soon as possible and on the same day?
- Would families agree you discuss Service health and hygiene requirements and practices with them?

Educators and Nominated Supervisor

Families and community

Theorist and current research

Step 2 Change Practice

Now you have reflected through the eyes of others, you are ready to make well informed decisions and plans to implement a change in your practice. List the changes below.

Evaluate the change in practice due to your reflection
