

The Blue Man Group

To extend upon children's learning and enjoyment of messy sensory play over the last few days Miss Frances and Miss Chanice introduced cel mix with blue and purple paint. Cel mix is used in paint to prevent it from straining on clothes, skin and walls. The educators made two consistencies of the cel mix;

one was clumpy and the other was smooth. Children enjoyed the experience of exploring with the “gooey” texture. The educator laid a large piece of paper on the floor for the children to explore finger painting in a different setting. The children further enhanced this experience as they painted the mixture on their legs

Ryan: "painting"

Educator: "yeah we're doing painting." iiti.

Abbie: "painting"

Educator: "oh look Nicholas is painting on his legs"

Educator: "look I made a ball"

Nicholas: "ball"

Matthew: "sticky"

Learning Outcome 1.1 - Children feel safe, secure, and supported as they engage in new experiences with the educator.

Learning Outcome 2.4 - Children become socially responsible and show respect for the environment as the children investigate new ideas.

Learning Outcome 3.1 - Children become strong in their social and emotional wellbeing as they share humour and happiness

Learning Outcome 3.2 - Children engage in experiences which require them to use their sensory capabilities.
