

Bathroom Safety and Hygiene Educators

NQS 2.1.2 Health practices and procedures

2.2.1 Supervision

3.1.2 Upkeep

Name Educator 1	
Name Educator 2	
Name Educator 3	
Name Educator 4	
Name Educator 5	

E = Embedded I do that **ALL** the time

K = I know I need to do that, but I don't do it all the time

T = Please teach me how to do it or improve my understanding of why I need to do it.

Facilities	ED1	ED2	ED3	ED4	ED5
Are nappy change tables stable?					
Are nappy bins located where children can't access them?					
Are nappy bins located where adults can't accidentally knock them over?					
Are change mats washable and in good condition eg no broken vinyl?					
Are childproof latches used on all drawers and cupboards?					
Have any loose or broken tiles been removed?					
Is liquid hand wash provided at every basin?					
Are paper/cloth towels provided? (Cloth towels must only be used by one child/person)					
Is there a "spill kit" nearby to clean spills of urine, poo, blood, and vomit (with gloves, paper towel, disposable cloths or sponge, detergent, bleach, scraper and pan)?					
Is there anything on the floor that may cause falls or slips?					
Are items stored so they can't cross contaminate other items?					
Supervision					
Are children supervised AT ALL TIMES in the bathroom?					
Display					
Are toileting and nappy change procedures displayed?					
Are hand washing procedures displayed?					
Are handwashing procedures with pictures displayed for children to follow?					
Is the cleaning schedule displayed					
Is the cleaning schedule signed off by the person who cleans the bathroom?					
Cleaning Procedures					
Is soiled clothing/nappies firmly sealed in containers and inaccessible to children at all times?					
Is the bathroom cleaned at least once a day?					
Is the bathroom cleaned as soon as it looks/smells dirty or there are spills?					
Is the toilet thoroughly cleaned eg around the base, under the lid					
Is the bathroom cleaned with detergent and water					
Is the bathroom disinfected if there are spills of blood, urine, poo or vomit which are known/suspected to be infectious?					
Can sponges/cloths used be easily identified because they're a specific colour eg orange for the bathroom?					
Are gloves worn to clean the bathroom?					
Are these gloves only used to clean the bathroom?					

Are the gloves hung out to dry after use?					
Are cleaning products inaccessible to children?					
Are plastic bags inaccessible to children?					
Are mops and buckets inaccessible to children?					
Are drawers and cupboards closed immediately after use?					
Do all staff clean and dry equipment after cleaning?					
Do all staff wash their hands as soon as they finish cleaning?
