

**If you are an Educator, come and take part in this international study!**  
**BEING NA EDUCATOR IN PANDEMIC TIMES**  
**We want to know your experience during the COVID-19 Pandemic**

**What is the study about?**

The goal of this international study is to learn about your experience and perception as an educator on the impact of the COVID-19 Pandemic on your practice and well-being.

**What will you be asked for?**

Answer this questionnaire about how you have adapted your pedagogical practices to the contingency measures imposed by the Government and National Health Agency immediately after the first period of confinement, and the impact of this adaptation on relationship with children, your peers, and on your well-being.

It will **be completely anonymous** and will take approximately 15 minutes to answer it.

**Who can participate?**

Educators that had been in active employment before the first period of confinement (before March 2020), just after that period (March 2020), and at the beginning of this school year 2020/2021, at the same Educational Institution.

**Why is this study and your participation so value?**

We are seeking testimony from Educators in many different countries so that we can develop a pedagogical resource to support early childhood education in pandemic situations.

**Please follow this address to participate:** <https://inqueritos.fmh.ulisboa.pt/index.php/454284?lang=en>
